

Bloomsbury Beekeepers

There are 3 main kinds of bees in a colony found inside of the beehive. They each have special jobs and **work together** to keep the colony healthy.

Have fun matching each job to the bee responsible for that job!

Bee Job Box

- Build honeycomb
- Work to store the honey
- Protect the queen bee
- Lay eggs
- Act as the nurse bees
- Guard the hive
- Collect pollen and nectar
- Mate with the queen bee
- Pollinate flowers and plants!

Choose the job from the Bee Job Box

Queen

1) _____

Worker
